The LT recessed fully indirect fixture is a great solution for an aesthetic RGBW fixture in a variety of applications.

The light engine is hidden within the fixture, so a white diffuse reflector is employed to spread light out of the fixture.

This fixture is fully recessable in a 2x4 grid system by cutting ceiling tiles to supplied dimensions.

The LT recessed fully indirect is a great solution for RGBW light that can be combined with a variety of color changing controls systems.

Contact customer service with any questions about available controls solutions.

	4' LENGTH
