LE Series
Retrofit Kit / Fixture

Architectural narrow lens
Designed for economy pricing
Best efficiency of ESI troffer options
- Door frame kit available -

*See "Door Frame Sell Sheet" for more details

The LX and LE are offered as both new fixtures or as retrofit kits, either option gives the appearance of a completely new fixture. Both series fit all standard troffer housings and are available in 1x4, 2x2, 2x4 sizes.

LT Series
Retrofit Kit

Quickest install of all ESI troffer options
Configured for one, two, or three "lamps"
Fits all standard troffer housings
Compatible with most surface mount housings

KT Series
Retrofit Kit

Simple install into existing troffer housing
Available with or without reflector
Prewired options available for type A, B, or C lamps
Multiple reflector profiles available

The LT and KT are less expensive and involve a faster installation, maintain the look of the existing fixture, with all of the benefits of a new LED fixture. The KT is available as an LED Tube kit or as a Fluorescent kit.

All ESI products are Made in America with industry leading components. All products are capable of dimming, emergency backup, a variety of controls, and several other options. Custom design upon request! Contact ESI customer service at (651) 268-6060 with any questions.
